

6516207639.txt

I would like to urge you to reject the NAB's petition 04-160. I am 33 years old, employed, and I vote when the time comes. I subscribe to XM radio because it has the programming that I need, if it is local weather and traffic, so be it. I am willing to pay for the services if local FM stations will not offer me what I want.

Thank you for your time,
Edward Vincent
